DYNACORE APPOINTS HERCAB AS AGENT FOR LATIN AMERICA

VANCOUVER, BC, CANADA, March 1, 2008 — Dynacore™ Equipment Limited (Dynacore) today announced that HERCAB S. de R.L. de C.V. (HERCAB) of Mérida, México has been appointed as Dynacore's agent in Latin America. HERCAB is now authorized to sell Dynacore's complete line of equipment for the hollowcore industry. HERCAB has recently made its first sale of Dynacore equipment to a leading pre-cast manufacturer in Costa Rica. Dynacore and Hercab will be exhibiting together at Concreto LatinoAmerica, June 17 - 19, in Mexico City, at Booth # 1906.

"HERCAB has a long history in the Latin American pre-cast industry," said Geoff Chambers, president of Dynacore. "They understand the market, they have experience in pre-cast technology and they support their customers well. HERCAB's reputation for quality support was one of the main reasons we chose to partner with them."

With the addition of Dynacore's hollowcore extrusion systems and saws, HERCAB is able to offer its customers a comprehensive range of equipment for pre-cast concrete production; the company provides products for hollowcore, block manufacturing, pres-stress and materials handling.

"We looked at other hollowcore equipment vendors and concluded that Dynacore machines are extremely well-suited to the Latin American marketplace," comments Jorge A. Hernández, CEO of HERCAB. "The market here is just beginning to get into hollowcore, so it is important to prove to producers that hollowcore can be produced very cost-effectively. Dynacore equipment is designed for low maintenance costs and low parts costs. The machines are very reliable and simple to operate."

About HERCAB

HERCAB is a privately-held company that has been established since the early 1950's, specializing in equipment for the pre-cast construction industry in Latin America. As a manufacturer's representative for leading vendors of concrete production technology, HERCAB is able to supply entire concrete plants with machinery for block-

making to fully automated block plants, pre-cast and pre-stress production equipment, hollowcore extrusion systems and material handling equipment. For more information contact HERCAB at: +52 (999) 9811112, +52 (999) 9816333, 01 (800) 5701470 or see our website at: www.hercab.com.

About Dynacore

Dynacore Equipment Limited is a privately-held company based in Vancouver, Canada. Dynacore has an established customer base in Europe, North America, the Middle East and Australia; it markets directly to hollowcore producers in North America and through selected agents in Latin and South America, Africa, the Middle East, Europe and South Asia. Dynacore is ISO-9001:2000 certified. For more information, contact Dynacore at: +1 604 984 0444, or see our website at: www.dynacore.ca.
